

Lipoderma[®]

Procedure Checklist

Prior to Scheduled Procedure Date

Please ensure the following materials are available prior to the procedure date:

- ✓ Product Preparation Guide
- ✓ 18-gauge needle for withdrawal of Lipoderma from the vial
- ✓ 21-gauge or larger needle or cannula for procedure

Supplies can be ordered from vendors such as:

- [Face Med Store](#)
- [MedLine](#)

Day of Procedure

- Remove vial(s) from storage at least **30 minutes** prior to the procedure
- Maintain product labels in the patient's file
- Follow the instructions outlined in the Product Preparation Guide
- Reach out to your Lipoderma representative with any questions prior to beginning the procedure
- If planning to post to social media, please refer to the Social Media Guidance
